

Fletchers Combe Information

Local shopping services

At Fletchers we believe in supporting the local economy and encourage our guests to benefit from a superb range of local shops. Totnes is well known for its choice of independent and sometimes quirky shops and there are only a few chain stores. As a 'Transition Town' Totnes has developed various initiatives to create a sustainable community in a post oil world including its own currency - the Totnes Pound - which can be used in most local independent shops. Many other local towns have a good range of independent shops including Dartmouth, Kingsbridge, Modbury, Ashburton and Tavistock. If you need a chain store fix then a journey to Torbay, Exeter or Plymouth will provide it.
